

# Bury Me (6 Feet Under)

Alexandra Burke

Six feet under is where I'll be  
Six feet under is where I'll be  
Six feet under is where I'll be  
Love bury me

Is there a doctor in the house?  
Someone check my pulse  
Cuz it feels like I'm not breathing  
And I can't believe it  
Wherever I am there he goes  
Says he's only joking but I know  
That he really means it  
Never mind keep it

You gotta give up to get up  
And leave when you're fed up  
Even though you're what I need  
I can't let love bury me  
So give up and get out  
And leave when you're fed up  
Even though you're what I need  
I can't let love bury me

Six feet under is where I'll be  
Six feet under is where I'll be  
Six feet under is where I'll be  
Love bury me

Says I'm the one he treasures  
But you threw the key in the river  
Now how you gonna find it  
Oh go fishing is my name  
Now move out my way  
I got dishes to break  
Cuz he says he's already eaten  
Tell me where you and her are meeting

You gotta give up to get up  
And leave when you're fed up  
Even though you're what I need  
I can't let love bury me  
So give up and get out  
And leave when you're fed up  
Even though you're what I need  
I can't let love bury me

You need to think about this moment  
Before you eat around this donut  
You ain't got time for me  
I'm on to another recipe  
See you need to think about this moment  
I know that you have chosen  
To take a break from me  
Now I know that's exactly what I need

You gotta give up to get up  
And leave when you're fed up

Even though you're what I need  
I can't let love bury me  
So give up and get out  
And leave when you're fed up  
Even though you're what I need  
I can't let love bury me

Six feet under is where I'll be  
Six feet under is where I'll be  
Six feet under is where I'll be  
Love bury me
