

Feminine Energy

Alexandra Kay

Oh-oh, what a girl, what a girl needs
Oh-oh, what a girl, what a girl needs

I paint my nails because I like the way they look running down your back
I curl my hair and leave it down 'cause I like how your hands move through it like that
I bought this dress to watch your eyes go from my head to my toes (Head to my toes)
I'm obsessed with stealing your breath and I don't care who knows

You got me feeling my feminine energy (Energy)
You bring out a sexier side of me (Side of me)
I'm stepping straight out of a fantasy (Fantasy)
Boy, you know just what a girl needs (Girl needs)
Yeah, it took a real man to make me feel like a real woman
Can't nobody love me like you can
Everyone can see, I'm feeling my feminine energy (Energy)

Feminine energy
Oh-oh, what a girl, what a girl needs

I can tell that it's magnetic, baby
By the way you keep pulling me in
It's so much more than an aesthetic, baby
But I feel better with my skin on your skin
Yeah, I'm Miss Independent, I handle all my business
But, boy, I love it when you get that door
No, I don't need a man, but I look at you and damn
I wanna need you more

You got me feeling my feminine energy (Energy)
You bring out a sexier side of me (Side of me)
I'm stepping straight out of a fantasy (Fantasy)
Boy, you know just what a girl needs (What a girl needs)
Yeah, it took a real man to make me feel like a real woman
Can't nobody love me like you can
Everyone can see, I'm feeling my feminine energy (Energy)

Feeling my feminine energy
What a girl needs
Boy, you know just what a girl, what a girl needs

You got me feeling my feminine energy (Energy)
You bring out a sexier side of me (Side of me)
I'm stepping straight out of a fantasy (Fantasy)
Boy, you know just what a girl needs (What a girl needs)
Yeah, it took a real man to make me feel like a real woman
Can't nobody love me like you can
Everyone can see, I'm feeling my feminine energy (Energy)

Boy, you got me
Oh-oh, what a girl, what a girl needs
Boy, you know just what a girl, what a girl needs
