

Old Me

Alexandra Kay

Sorry I don't laugh at the same jokes
Sorry that I started to smoke know you hate it
Sorry that I like all the music
We always said was overrated
All the things I was running from
All along guess I wanted 'em
People change guess I'm one of 'em

You're in love with the old me
You don't even know me now
Even my heart beats a little bit different now
So go ahead, go ahead and forget everything I said
'Cause you're in love with the girl that I was on the day we met
But the old me is dead

Sorry that I'm such a disaster
Sorry that I got everything I was after
Sorry that I moved to the city
And that it fit me
All the things I was running from
All along guess I wanted 'em
People change guess I'm one of 'em

You're in love with the old me
You don't even know me now
Even my heart beats a little bit different now
So go ahead, go ahead and forget everything I said
'Cause you're in love with the girl that I was on the day we met
But the old me is dead
The old me is dead
Oh

I could try, you could try, we could try but you need to know
I'll never be, never be, never be who you used to hold
All the things I was running from
All along guess I wanted 'em
People change guess I'm one of 'em

You're in love with the old me
You don't even know me now
Even my heart beats a little bit different now
Go ahead, go ahead and forget everything I said
'Cause you're in love with the girl that you knew on the day we met
But the old me is dead
The old me is dead
So go ahead, go ahead and forget everything I said
You're in love with the girl that I was on the day we met
But the old me is dead
