

Second Wind

Alexandra Kay

I swore off love I've had enough of my heart drug through the dirt
I gave my best, he took the rest
Left me in a cloud of hurt
Sometimes the heart gets it right the first time
Sometimes it takes another try and you were mine

Now I'm floating like a feather
Changing with the weather
Riding on a westerly across the sky
Fast as Santa Anas
Now in panorama I see why I survived every lightning strike
Look at what the storm blew in
You're my second wind

You put the light back in my eyes
I can breathe again
I tried to fight when our stars aligned
But you pulled me in
Sometimes the heart gets it right the first time
Sometimes it takes another try and you were mine

Now I'm floating like a feather
Changing with the weather
Riding on a westerly across the sky
Fast as Santa Anas
Now in panorama I see why I survived every lightning strike
Look at what the storm blew in
You're my second wind
Oh you're my second wind

April showers bring May flowers
Kinda like a love like ours
Had to brave the rain so we could bloom
April showers bring May flowers
And baby in my darkest hour
You were the one that got me through

Now I'm floating like a feather
Changing with the weather
Riding on a westerly across the sky
Fast as Santa Anas
Now in panorama I see why I survived every lightning strike
Look at what the storm blew in
Oh just when I thought I'm never gonna love again
I found my second wind
You're my second wind
Oh
