

# Tomorrow Problems

Alexandra Kay

I got a job I wanna quit  
I got an ex I need to ditch  
And I need a fix  
My car's out in a no park zone  
It's gotta move  
And if it don't it's gettin' towed  
I got a million different reasons to go  
But the last place I'm going is home

We got tomorrow problems  
Pour me a double, get to whiskey talkin'  
Blowin' all our money like we're Bill Gates ballin'  
Wake up in the morning laughin' at rock bottom  
We goin' out all night, we put it all on ice  
No we ain't gotta solve 'em  
We got tomorrow problems  
We got tomorrow problems  
But we ain't got none tonight

I got some bills I gotta pay  
But they can wait  
'Cause I'm overdrawn and I'm overdrank  
I might've made a few mistakes  
I might've smoked a couple things and now I think  
I got a million different reasons to go  
But my song is on so I'm thinkin' no

We got tomorrow problems  
Pour me a double, get to whiskey talkin'  
Blowin' all our money like we're Bill Gates ballin'  
Wake up in the morning laughin' at rock bottom  
We goin' out all night, we put it all on ice  
No we ain't gotta solve 'em  
We got tomorrow problems  
We got tomorrow problems  
But we ain't got none tonight

I got 99 problems but a drink ain't one  
And every one of 'em can wait until the morning comes  
I got 99 problems but a drink ain't one  
And every one of 'em can wait until the morning comes

We got tomorrow problems  
Pour me a double, get to whiskey talkin'  
Blowin' all our money like we're Bill Gates ballin'  
Wake up in the morning laughin' at rock bottom  
We goin' out all night, we put it all on ice  
No we ain't gotta solve 'em  
We got tomorrow problems  
We got tomorrow problems  
But we ain't got none tonight

I'm not going home
