

# Can't Help Myself

Alexandra Savior

Soft kiss, my baby wanted it  
I could sense it from a mile away  
He wants a bit of this sweet melancholy and  
He can get it any time of day

'Cause nothing else can satisfy him  
Oh, oh, I can't help myself  
Something comes over me  
Baby, whenever you are around

Light dims as he walks my way  
I've been running for a reason I could never retain  
Sweet lips like pink lemonade  
When he's feeling generous he's gonna give me a taste

'Cause nothing else can satisfy me  
Oh, oh, I can't help myself  
Something comes over me  
Baby, whenever you are around

Oh, oh, I can't help myself  
Something comes over me  
Baby, whenever you are around  
Oh, oh, I can't help myself  
Something grabs hold of me  
Baby, whenever you are around
