

# Cupid

Alexandra Savior

Filled in the hole in the road  
We were speaking in code  
Stuck in fantasy mode  
Who never really liked  
Coming back down to Earth  
It's not that it hurt  
It was just so much worse  
With anyone but you...

Know a shortcut  
A sure shot  
I forgot...  
How it ought to feel

I don't know what to do...  
It's a whole lot  
To hold back  
You know that  
Cupid shoots to kill

There's a mysterious force  
It sinks in it's claws  
Pulls me closer to yours  
Some cosmic business  
Illuminating allure  
What are we waiting for  
Never hated you more  
Why does nobody but you

Know a shortcut  
A sure shot  
I forgot...  
How it ought to feel

I don't know what to do...  
It's a whole lot  
To hold back  
You know that  
Cupid shoots to kill

Know a shortcut  
A sure shot  
I forgot...  
How it ought to feel

I don't know what to do...  
It's a whole lot  
To hold back  
You know that  
Cupid shoots to kill
