Send Her Back

Alexandra Savior

Life must go on
Spite it all, you've been guilty
Last kiss, hold your horses

Why don't you send her back where she came from?
Why don't you send her back where she came from?

Why don't you send her back where she came from?
Why don't you send her back where she came from?

How could you do it, baby?
How could you do it, baby?
Why don't you send her back?
