

# Alone

Alexandra Stan

Bodies left to rot  
But we are only looking in each other's eyes  
Love has made us blind  
I'm your focus now and baby, you are mine  
The world could end right here tonight  
Bodies left to rot  
But we are only looking in each other's eyes

When the sun goes down, we shine like gold  
Yeah, we light up, light up  
Summer's running out, so don't let go  
Hold me tighter, tighter  
We should love like it's the last time  
Like we're the only ones beneath this starry sky  
Right here in this crowd, let's lose control  
Baby, like we're alone

Come on, say my name  
Like these velvet days ain't ever gonna fade  
Hold me to the flame  
Cause tomorrow, we won't get a chance again  
Want you to lie right to my face  
Come on, say my name  
Like these velvet days ain't ever gonna fade

When the sun goes down, we shine like gold  
Yeah, we light up, light up  
Summer's running out, so don't let go  
Hold me tighter, tighter  
We should love like it's the last time  
Like we're the only ones beneath this starry sky  
Right here in this crowd, let's lose control  
Baby, like we're alone
