There's no more time no no
No more wasted nights
No more wasted I'm
Bye bye
Baby all this time
Always all the lies
Were you always mine
Say the truth

Now
Ahh
Now
Ahh

You make meh
You make meh
You make meh
You make meh
You make me eh eh eh eh eh eh

I know I gotta leave
But I wanna stay
If it was up to me
I'd lay in bed all day
One more minute
Because I'm late anyway
But trust when I finish
Imma be here right away
With no hold ups Just hold ya
Caressing and kiss shoulder
Then bend over
I'm your soldier
And I'm standing on the frontline
While we both lay in bed
As we just kill time

Oh
Since you left
Don't feel right
Need your body over me
Wanna hear the air you breath
Since you left
Oh oh oh oh oh oh

You make meh
You make meh
You make meh
You make meh
You make me eh eh eh eh eh eh
