Nothing you do will get to me, I'm telling you
All of the words you put before me, I tear them down
For all the times you looked into my eyes and told me lies
Now I'm moving on, singing this song
I'm leaving you!

Whatever you do to me, You'll only set me free Whatever you do to me, You'll only set me free Whatever you do to me, You'll only set me free Whatever you do to me, You'll only set me free

Nothing you do will get to me, I'm telling you

For all the times you looked into my eyes and told me lies

Now I'm moving on, singing this song

I'm leaving you!

Whatever you do to me, You'll only set me free Whatever you do to me, You'll only set me free Whatever you do to me, You'll only set me free Whatever you do to me, You'll only set me free
