

## Everyday

Alexia

This is not a love song  
This song is not for you  
This is not a love song  
Can't you hear me singing it for you  
I thought that i belonged to  
No-one else but you  
The nights are sad and lonely  
You don't think about me neither i, you  
Nothing lasts forever  
It's all i had from you  
Every day  
Every night with you  
Here by my side  
I don't wanna be with you  
Now you treat me friendly  
But I'll never change my point of view  
Never get back together  
Nothing else to do  
Every day  
This is not a love song  
This song is not for you  
This is not a love song
