

# Goodbye

Goodbye

Enough is enough for me, baby  
You better get out of my life  
And if you come back to me maybe  
Remember I told you "Goodbye"  
I've never been so sad in all my life  
No one killed me before  
Tell me why did you do that?  
Oh, don't tell me everything will be alright  
Baby, this is the door  
It's too late to be sorry  
Oh baby, I need a passion in my life  
A very special kind of love  
Don't care about you

Goodbye

Enough is enough for me, baby  
You better get out of my life  
And if you come back to me maybe  
Remember I told you "Goodbye"  
There's nothing you can do to change my mind  
'Cause you've played with my love  
It's so hard to forget it  
Baby, I need a passion in my life  
A very special kind of love  
Don't care about you

Goodbye

Enough is enough for me, baby  
You better get out of my life  
And if you come back to me maybe  
Remember I told you "Goodbye"  
I'll never forgive you

Goodbye

Enough is enough for me, baby  
You better get out of my life  
And if you come back to me maybe  
Remember I told you "Goodbye"  
Enough is enough for me, baby  
You better get out of my life  
And if you come back to me maybe  
Remember I told you "Goodbye"
