

We Is the Power

Alexia

Don't you understand,
The world's in our hands.
There's no stopping of us now,
Our time has just began.
There's no liberty,
We've got no facilities,
To distinguish our souls,
Just to find out 'bout you

There's no use in closing your eyes,
All alone you'll never survive.
It's impossible now,
That we're taking control.

Close your eyes...

No, the sky's at limit no more,
But you're lost if you lock the door.
And if you don't understand,
WE is the power!

We gotta hold some dreams to keep our rebel hearts together,
And burning forever more.
We are the power of the universe that shines forever,
WE is the power we have!
WE is the power you have!
Time... time... time's began...
We... we... WE is the power!
We... WE is the power!

There's no cruelty,
No more frailty.
Use the fire deep inside,
To discover who you are.

Your identity,
Makes up your reality.
No more need to compromise,
If you wanna stay alive.
Don't you know that yesterday's gone?
And tomorrow's all that we've got?
But today is the fight that we've got to face.

Make this unity become home,
And you soon be part of the show.
And you're gonna figure out,
WE is the power!

We've gotta hold some dreams to keep our rebel hearts together,
And burning forever more.
We're the power of the universe that shines forever,
WE is the power we have!
WE is the power you have!"
