

Language

Alexis Munroe

I can't understand you
You're not speaking my language
(It's all noise to me)
I can't understand you
You're not speaking my language
(It's all noise)

You don't seem to get it
You just yell, and scream out words
You push me to the edge
You don't know how much this hurts
I just do what you say
It never works
Now we're fighting over nothing
Over who said it first

I don't really care what you say
The fuck I do to treat me this way
You're going bout this in the wrong way
Can you shut up and just let me talk
I don't really care what you say
The fuck I do to treat me this way
You're going bout this in the wrong way
Can you shut up and just let me talk

I can't understand you
You're not speaking my language
(It's all noise to me)
(It's all noise to me)

I don't wanna wait on you
To say you're sorry
But it's more than saying sorry
To show me that you want me
We always do it your way
It never works
And now we're fighting over nothing
And this shit keeps getting worse

I don't really care what you say
The fuck I do to treat me this way
You're going bout this in the wrong way
Can you shut up and just let me talk
I don't really care what you say
The fuck I do to treat me this way
You're going bout this in the wrong way
Can you shut up and just let me talk

I can't understand you
You're not speaking my language
(It's all noise to me)
I can't understand you
You're not speaking my language
(It's all noise)

Tell me you can't be alone
How was I supposed to know?

Screaming every time I go
But it's all noise to me
And I can't read your mine

I don't really care what you say
The fuck I do to treat me this way
You're going bout this in the wrong way
Can you shut up and just let me talk
I don't really care what you say
The fuck I do to treat me this way
You're going bout this in the wrong way
Can you shut up and just let me talk

I can't understand you
You're not speaking my language
(It's all noise to me)
I can't understand you
You're not speaking my language
(It's all noise)
