

# SHE SO COLD

Alexis Munroe

Whoa

I take chances, hit me and I bet it all (Bet it all)  
I won't go, yeah, you could never make me go (Make me go)  
You don't like me? Baby, I already know (Already know)  
I'm so sick, yeah, think I need an antidote (Ha)  
She so cold, yeah, think that bitch from Canada (Yeah)  
I don't fold, yeah, make a check and spend it all (Spend it all)  
Catch a fight, yeah, you so low and I'm so high, yeah  
(Ha, ha-ha)  
Bitch (Yeah)

I work better on my own (I work better on my)  
I do it better on my lonely (I do it better on my lonely)  
Unsaved numbers in my phone (Unsaved numbers in my)  
Don't hit me up when you're lonely (Don't hit me up when you're lonely)

Whoever let me out my cage is fuckin' stupid (Stupid)  
You don't gotta dare me, I'll already do it (I'll already do it)  
I'm still a bad bitch even when I'm goin' through it (When I'm goin' through it)  
I'm still a bad bitch even when I'm goin' through it (When I'm goin' through it)

I take chances, hit me and I bet it all (Bet it all)
