

# Sundown

Alexis Munroe

Yeah, when the lights go down and the sun goes down  
Yeah, we gonna find our way, yeah, we gonna find it  
Together, together

When the lights go out and the sun goes down  
Driving so fast, I'ma find myself right now  
I've been chilling, I've been cruising, I've been doing my best  
Always fighting against the odds, yes, I'm up for the test  
I'ma say it once, I'ma say it twice, this is my time  
I'ma make it so high, I think I'm doing this right  
They can never stop me, I'ma never give up  
Always gonna do my best, I hope I'm enough

Every single day, I try my best  
So we can have a date and watch the sunset  
Please don't worry too much, you're doing the best  
I'm tryna give you everything so you're the happiest  
Every day, I wonder what'd I do to deserve this  
Crying on your shoulder, please don't tell me that it's over  
I don't wanna die tonight, I don't wanna take my life  
But this thought of you not being here, it keeps me up at night  
When the lights go out and the sun goes down  
I think about you, yeah, you bring me down  
I just wish you and me could fix this together, together

When the lights go out and the sun goes down  
Driving so fast, I'ma find myself right now  
I've been chilling, I've been cruising, I've been doing my best  
Always fighting against the odds, yes, I'm up for the test  
I'ma say it once, I'ma say it twice, this is my time  
I'ma make it so high, I think I'm doing this right  
They can never stop me, I'ma never give up  
Always gonna do my best, I hope I'm enough

I got a tendency to overthink  
You're not yourself when you overdrink  
Can't stop comparing this to what it used to be  
Now I question why you wanna be with me  
Late night drives with the windows down  
Tell me that you'll never let me down  
Maybe one day, you'll come around  
Guess I gotta learn to love what I got now  
(I got a tendency to overthink)  
(I got a tendency to overthink)

When the lights go out and the sun goes down  
Driving so fast, I'ma find myself right now  
I've been chilling, I've been cruising, I've been doing my best  
Always fighting against the odds, yes, I'm up for the test  
I'ma say it once, I'ma say it twice, this is my time  
I'ma make it so high, I think I'm doing this right  
They can never stop me, I'ma never give up  
Always gonna do my best, I hope I'm enough
