

Trapped

Alexis Munroe

I'm calling, calling out for someone
To come chase this darkness inside of me
Keep me away and awake from this bad dream
I, I'm drowning in my body
I'm not the person that I want to be
But I've been trapped for so long
This is all I know and now I can't leave

But the show must go on
Even though I'm still gone
Yeah, because you like it
You like all the crazy and my ways (Ah-ah)
You know that you like it
I'm certain it's in any ways the same

I'm calling, calling out for someone
To come chase this darkness inside of me
Keep me away and awake from this bad dream
I, I'm drowning in my body
I'm not the person that I want to be
But I've been trapped for so long
This is all I know and now I can't leave
