

alive

Alextbh

I know I shouldn't fall for you
But who gives a shit
About what people think

'Cause every little thing you do
The way you said "Hey
Are you down for a drink?"
Yeah

So come over tonight if that's okay
We've got things to worry 'bout
I just need you here for now
So come over tonight if that's okay
We can try and take it slow
Promise me you'll stick around

Let me love ya
Bring your body close to mine
Hold me and just
Breathe me and make me alive

Let me love ya
Bring your body close to mine
Hold me and just
Breathe me and make me alive

You know that I believed in you
When I tried to run my
Fingers down on your spine
And maybe I don't see this through
No, no
But I'm so fucked up
Convince me I don't need anybody else at all

So come over tonight if that's okay
We've got things to worry 'bout
I just need you here for now
So come over tonight if that's okay
We can try and take it slow
Promise me you'll stick around

Let me love ya
Bring your body close to mine
Hold me and just
Breathe me and make me alive

Let me love ya
Bring your body close to mine
Hold me and just
Breathe me and make me alive
