Between

Alextbh

You know what the fuck is up, boy
There's a universe in your eyes
They can never ever lie, boy
Stardust settle in my mind
You know where it hits right
You know when it feels right
Elevate to the skies

Speed it up or stay in slow motion
Either way I'll prove my devotion
Oh, let me give it to ya

Nothing ever comes between
Nothing ever comes between us
Nothing ever comes between
When I get between ya
Nothing ever comes between
Nothing ever comes between us
Nothing ever comes between
When I get
(Let me give it to ya)

You know what the fuck is up, boy
There's a universe in your eyes
Conversations run dry, boy
So roll up, leave your mind behind
You know where it hits right
You know when it feels right
Elevate to the skies

Speed it up or stay in slow motion
Either way I'll prove my devotion
Oh, let me give it to ya

Nothing ever comes between
Nothing ever comes between us
Nothing ever comes between
When I get between ya
Nothing ever comes between
Nothing ever comes between us
Nothing ever comes between
When I get
(Let me give it to ya)
