

Lead The Way

Alextbh

Your hum is like a roar
Ringing in my heart
Your moan is symphony
Playing in my head
Stringed together with your breaths
I want you to fuck me again
Into the abyss you go
And pull me out of my despair

But tomorrow is another day
And I don't know if you would stay
So in the meantime

Just lead the way
Just lead the way
Just lead the way
Just lead the way
Hey, hey hey

Take me as I am
Let my body speak
When you hold me close
You make me so weak

Oh, tomorrow is another day
And I don't know if you would stay
So in the meantime

Just lead the way
Just lead the way
Just lead the way
Just lead the way
Hey, hey, hey, the way
Just lead the way
Just lead the way
Just lead the way
Hey, hey, hey, the way

I'ma let you lead the way
