

Lights Out

Alextbh

Lights out, eyes closed, get cozy
My mind, my soul, my body
Won't align if you're not with me
Yeah your presence is all I need

Pick a role to play yeah that's a big mood
Scream it out, I take it straight to the booth
Pain and pleasure, mix it up, it's all good
I hate that it's all just in my head
Need you to ruin this bed
We go hard then go again

Thinking 'bout the things I'd do to you
I'd do to you
Wish you'd come through
Sweat it out we're heating up the room
Oh what a view
Wish you'd come through

Switching sides, switch and ride, turn the tide
You're the ray, you're the sun, feels so nice
Days like that are hard to come by
So come provide me with the high

Private show, yeah it's a pay per view
Wear your Nike socks or wear your see-throughs
That don't matter 'cause you still look good
But I hate that it's all just in my head
Need you to ruin this bed
We go hard then go again

Thinking 'bout the things I'd do to you
I'd do to you
Wish you'd come through (Whoa, yeah)
Sweat it out we're heating up the room (Heating up the, room)
Oh what a view (Oh what a view)
Wish you'd come through

Thinking 'bout the things I'd do to you
I'd do to you (I'd do to you)
Wish you'd come through (Yeah, yeah)
Sweat it out we're heating up the room
Oh what a view (Oh what a view)
Wish you'd come through

Oh, won't you, won't you come through?

Turn the lights out, baby
Turn the lights out, baby
I've been thinking 'bout, I've been thinking 'bout
You, woah
You, woah
