

# Like That

Alextbh

This bar's about to close so  
We should head home right now  
The gin's finally hit me  
Guess I should just let it out

Hmm, don't need explaining  
No, I'm not complaining  
When our hands are touching  
Bodies do the talking  
Hands on the steering wheel  
I stole a glance and I'm  
Locked in

How can I resist  
When you look at me like that?  
How can I resist  
When you look at me like that?  
How can I resist  
When you look at me like that?  
How can I resist  
How can I resist  
When you look at  
When you look at me like that?

I'll pour over your skin  
I'll put my words in your mouth  
This is what it feels like  
Love without a second of doubt

Hmm, don't need explaining  
No, I'm not complaining  
When our hands are touching  
Bodies do the talking  
Stop what you're doing  
Take me home and lock the door  
Right now

How can I resist  
When you look at me like that?  
How can I resist  
When you look at me like that?  
How can I resist  
When you look at me like that?  
How can I resist  
How can I resist  
When you look at  
When you look at me like that?

Our bodies joined and become one  
And I don't know how you do it  
How you drive me crazy  
Don't wanna see the morning sun  
Just show me how you do it  
How you drive me crazy

Our bodies joined and become one  
(Our bodies joined and become one)

And I don't know how you do it  
How you drive me crazy  
Don't wanna see the morning sun  
(Don't wanna see the morning sun)  
Just show me how you do it  
How you drive me crazy

How can I resist  
When you look at me like that?  
Oh, how can I resist  
Oh, when you look at me like that?  
How can I resist  
Said, how can I resist you, baby  
When you look at me like that  
Said, how can I resist you, baby  
When you look at  
When you look at me like that?
