

No Space

Alextbh

Palm trees, sun-kissed
Skin, I felt it
No hesitating
Sick of waiting
Boy I can't
Deny it

Palm trees, light up two spliffs
In the A.M
That's what I want
You and I
Let's make it happen
Know you had it
In your mind

There's no holding back now
Nothing else comes closer
You know that I give you a little (uh)

I don't, I don't, I don't need no space
Give me all your loving n', I'll give you a little taste
No more, no more, no more time to waste (yeah)
I don't, I don't, I don't need no
Space baby

Palm trees, night skies
Till the sunrise
Don't leave me right now
Couple hours is all we got
Need that human touch

There's no holding back now
Nothing else comes closer
You know that I give you a little (uh)

I don't, I don't, I don't need no space
Give me all your loving n', I'll give you a little taste
No more, no more, no more time to waste (yeah)
I don't, I don't, I don't need no
Space baby

'Cause I see it in your eyes
There's more to us than the night
Yeah I see it in you
I don't, I don't, I don't need no
Space baby

There's no holding back now
There's no holding back
There's no holding back now
Nothing else comes closer
You know that I...

I don't, I don't, I don't need no space
Give me all your loving n', I'll give you a little taste
No more, no more, no more time to waste (no more time to waste)
I don't, I don't, I don't need no

Space baby

'Cause I see it in your eyes
There's more to us than the night
Yeah I see it in you

I don't, I don't, I don't need no
Space baby
