I'm preparing myself to forgive you

I still love you  
I still love you  
I still

I still love you  
I still love you  
I still

I still love you  
I still love you  
I still

I still love you  
I still love you  
I still

I still love you  
I still love you  
I still

I still love you  
I still love you  
I still

I still love you  
I still love you  
I still

I still love you  
I still love you

I still love you  
I still love you

I still love you  
I still love you  
I still

I still love you  
I still love you  
I still

I still love you  
I still love you  
I still

I still love you  
I still love you  
I still

I still love you  
I still love you  
I still

I still love you

I still - you're out of your mind

I still love you  
I still love you

I still love you
