The Chase

Alextbh

Might sleep with you right away
Might fall for you while we're at it
What are you up to, boy?
My love's just round the corner

I don't mind facing the altar
Even if I'm left with no answers
Maybe we stan Miss J
Just need that bit of faith

My walls are porous
You know where the door is, yeah yeah
Addicted to the chase, yeah
To the chase, yeah, uh-huh

This is a sign
A sign of the times
Another transaction with my affection on the line

This is a sign
A sign of the times
I'm wasting my youth on you but nothing beats this high

Sorry you're the cause of pain
I brought this void from the past life
Waiting for anyone to fill my lungs with filtered air

My walls are porous
You know where the door is, yeah yeah
Addicted to the chase, yeah
To the chase, yeah, uh-huh-huh

This is a sign
A sign of the times
Another transaction with my affection on the line

This is a sign
A sign of the times
I'm wasting my youth on you but nothing beats this high
