

Drifting

Alexz Johnson

Where did you come from?
Where did you go?
How did you get there?
Who really knows?
What is your secrets?
Who knows the code?

It's a long, dark road
Don't know where it goes
We're drifting
But we can't lose hope

It's a long, dark road
Don't know where it goes
We're drifting
But we can't let go

Look at the lightning
It's all alone
One single impact
Cuts to the bone (We're looking for the nightlife)

Look at the image
Inside the frame (We're headed for the nightlife)
Everything changes (Bright lights)
Nothing's the same (We're headed for the...)

It's a long, dark road
Don't know where it goes
We're drifting
But we can't lose hope

It's a long, dark road
Don't know where it goes
We're drifting
But we can't let go

But we can't let go

Nightlife, we're headed for the nightlife
We're looking for the
The white light
We're looking for the
The bright light
We're headed for the
The nightlife
