

Lost and Found

Alexz Johnson

Gone away, underwater
Gone away, underwater
Gonna stay, under the weather
Gonna stay, under the weather

In the cradle cat's got your money
Bombs are dropping, police are coming
Telling tales, feels like you're running
Never stopping, oh giving you nothing

Turning tables, turning the town
Wait until they've all taken you down
Waiting in lost and found

(You can walk on water)

On the hill looking over
On the hill leaning over
Trying to stand over land
Make a stand, I've got your hand

In the cradle cat's got your money
Bombs are dropping, police are coming
Telling tales, feels like you're running
Never stopping, oh giving you nothing

Turning tables, turning the town
Wait until they've all taken you down
Waiting in lost and found

Who's gonna say that you can't walk on water?
Who's gonna say that you can't walk on water?
Who's gonna say that you can't walk on water?
Who's gonna say that you can't walk on water?
Who... is... gonna... say... you... can't
Who... is... gonna... say... you... can't

In the cradle cat's got your money
Bombs are dropping, police are coming
Telling tales, feels like you're running
Never stopping, oh giving you nothing

Turning tables, turning the town
Wait until they've all taken you down
Waiting in lost and found

(Walk on water, walk on water, walk on water)
