

No More Fear

Alexz Johnson

You spent a lot of money and you spread all of your honey on shiny things
But you never spend a second looking at the leather jacket with the Journey pin
You say you love your mama but I heard you never call her on a holiday
I love you anyway
It's a passion play

(No more fear) Let your dooby records play
(No more fear) Don't let anybody say that's queer
No more fear, like a karaoke song...
(No more fear) Lionel Richie "All Night Long", all damn year
No more fear, no more fear

Left for San Francisco 'cause you love the funky disco and the party scene
But you taste a little magic and the huntress started acting like a drama queen
I steal the secret letters with the glitter and the feathers, I don't need to say
I love you anyway
You crazy castaway

(No more fear) Let your dooby records play
(No more fear) Don't let anybody say that's queer
No more fear, like a karaoke song...
(No more fear) Lionel Richie "All Night Long", all damn year
No more fear

Just another story of the chaos and the glory on a Saturday
I love you anyway
It's a passion play

(No more fear) Let your dooby records play
(No more fear) Don't let anybody say that's queer
No more fear, like a karaoke song...
(No more fear) Lionel Richie "All Night Long", all damn year
No more fear, no more fear

Oh (No more fear)
