

Stranger With My Face

Alexz Johnson

You fall apart while you're in the game
You aim your dart but show your pain
And we'll never know what's up your sleeve
How far you will go it's in the breeze
As cold as snow we watch you freeze
You follow me home I'll call the police
Stranger with my face
(Better save me a seat cause I'm coming back home)
Stranger with my face
(Cannot lean on me better leave me alone)
Stranger with my face
(Leave me alone, better save me a seat cause I'm coming back home)
I will not run I'm like a tree
My roots are in apart of me
Still cannot believe
You've got no glue
The webs that you weave only stick to you
Stranger with my face
Stranger with my face
(Cannot lean on me better leave me alone)
Stranger with my face
(Leave me alone, better save me a seat cause I'm coming back home)
