

Beckham

Alfie Templeman

Opulence around me
Make it hard to see
Where the bridges burnin'
When it started burnin' me
The sucker's dance is endin'
All reason left the air
Freezin' till we're burnin'
Stomach in your stare

Something passin' doin' something else
We're stretchin', Beckham, David, Beckham
Something passin' doin' something else
We're stretchin', Beckham, David, Beckham

Worryin' is pointless
What good will it do?
Six more days in slumber
Slowly killin' you
You dig yourself so deeply
Pass the exit home
Weekend, our beginnings
To make you feel enough

Something passin' doin' something else
We're stretchin', Beckham, David, Beckham
Something passin' doin' something else
We're stretchin', Beckham, David, Beckham
Something passin' doin' something else
We're stretchin', Beckham, David, Beckham
Something passin' doin' something else
We're stretchin', Beckham, David, Beckham
