

Drag

Alfie Templeman

If I ever hit rock bottom
Hope you'll be there with me too
Help me far away my problems
Lift me up and push me through

Did anybody drag you down?
If you have ever worn the crown
Never lose another sign
Don't worry if it's hard without me

Did anybody drag you down?
If you have ever worn the crown
Never lose another sign
Don't worry if it's hard without me

I had drifted away in heaven
Bring me down and help me breathe
Listen to your voice forever
And everyone will just believe

You are your own self back too

Did anybody drag you down?
If you have ever worn the crown
Never lose another sign
Don't worry if it's hard without me

Did anybody drag you down?
If you have ever worn the crown
Never lose another sign
Don't worry if it's hard without me
