

Film Scene Daydream

Alfie Templeman

You used to be
My favorite memory
Well, I do like we left
In 1983

I was so naive
Until I turned fifteen
A living mystery
The world was one big dream

She said I'm crazy, baby (It's all in your head)
She's just a daydream, film scene (Film scene)
He said it's over, told her (Not playing games)
We're older

Stuck in a trance
Staring at my hands
Losing sense of time
You're inside my mind

She said I'm crazy, baby (It's all in your head)
She's just a daydream, film scene (Film scene)
He said it's over, told her (Not playing games)
We're older

She said I'm crazy, baby (It's all in your head)
She's just a daydream, film scene (Film scene)
He said it's over, told her (Not playing games)
We're older

It's all in your head
Film scene, film scene
Not playing games
Baby, you're crazy
We're older

She said I'm crazy, baby (It's all in your head)
She's just a daydream, film scene (Film scene)
He said it's over, told her (Not playing games)
We're older

She said I'm crazy, baby (It's all in your head)

He said it's over, told her (Not playing games)
We're older
