

First Time

Alfie Templeman

I see you and me walking down the street only in my dreams
How can this be, I wish that it was real
I wish that we could never ever change, never ever change
After all this time, staying just the same, staying just the same

For the first time
In a long time
Feeling so fine
Out of my mind
Listen to me
When I tell ya
Running to ya
Gonna get ya

I see your face when I'm all alone, when nobody's home
I want you back, now I see you're gone, time has crept along
I see you and me walking down the street only in my dreams
How can this be, I wish that it was real

For the first time
In a long time
Feeling so fine
Out of my mind
Listen to me
When I tell ya
Running to ya
Gonna get ya

Walking to your door
Won't do anymore
Searching for your soul
Dug into a hole

For the first time
In a long time
Feeling so fine
Out of my mind
Listen to me
When I tell ya
Running to ya
Gonna get ya
