

Mellow Moon

Alfie Templeman

A one way ticket to a crater
An out of office and a see you later
Now you know I'm really leaving
As soon as the moon is upon us
I'm on it, no falling
We could go up there this evening

I wish away the afternoon
Waiting for the mellow moon, gotta fly
Wait a minute give me
Five hundred unicorn balloons
To take us to the mellow moon, you and I

You wanna stay up here forever?
Quit your job and we can do whatever
Sure beats staring at the ceiling
We're floating in motion
The potion, I want it, I'm all in
Nothing else quite like this feeling

I wish away the afternoon
Waiting for the mellow moon, gotta fly
Wait a minute give me
Five hundred unicorn balloons
To take us to the mellow moon - you and I

And when we go to space
We'll be alone there
Nobody on our case
That's why I go there
Won't think about our friends
We wouldn't miss them
And when it gets intense
Jump off the deep end

I wish away the afternoon
Waiting for the mellow moon, gotta fly
Wait a minute give me
Five hundred unicorn balloons
To take us to the mellow moon, you and I
