

# Stop Thinking

Alfie Templeman

Well, I guess I should stay here  
For a little while  
Well, I want you to make it clear  
What you want from me?  
What I cannot say-ay-ay, yeah

Stop thinking about me, baby  
Stop thinking about me, baby (What you want from me?)  
Stop thinking about me, baby (What I cannot see)  
Stop thinking

Well, I guess I get a little bit cold in the winter  
Growing a little old  
My mind is fixed on you  
What am I to do? I'll think it through

Stop thinking about me, baby  
Stop thinking about me, baby (What you want from me?)  
Stop thinking about me, baby (What I cannot see)  
Stop thinking

Why do I sit here  
And keep you off my mind?  
Try not to fantasize, look into your ey-ey-eyes  
'Cause they're full of lies

Stop thinking about me, baby, about me, baby  
About me, baby, thinking about me, baby  
Stop thinking about me, baby  
Stop thinking about me, baby  
About me, baby  
About me, baby

Stop thinking about me, baby  
Stop thinking about me, baby (What you want from me?)  
Stop thinking about me, baby (What I cannot see)  
Stop thinking about me, baby  
Stop thinking about me, baby (What you want from me?)  
Stop thinking about me, baby (What I cannot see)
