

## This Is Just The Beginning For Us

Alfie Templeman

This is just the beginning for us, darling  
This is just the beginning for us, darling  
We're gonna make it, we'll never break it  
You'll never take it away from us  
We're gonna make it, we'll never break it  
You'll never take it away from us

If we were to stop and start  
You know my heart would break apart  
If you were to leave me now  
I'd find. way to live somehow  
To live somehow  
To live somehow

This is just the beginning for us, darling  
This is just the beginning for us, darling  
We're gonna make it, we'll never break it  
You'll never take it away from us  
This is just the beginning for us, darling

This is just the beginning for us, darling  
This is just the beginning for us, darling  
We're gonna make it, we'll never break it  
You'll never take it away from us  
This is just the beginning for us, darling
