

# Unoccupied

Algiers

No matter what  
The doubt's been sailing loose in my mind  
I can't occupy this space I'm given  
Turn around in the light  
It don't matter the reason  
You turn around on me  
Turn around all of my life  
And I got to find a reason  
To get on, alone in my life

She said, no matter what  
The doubt's been sailing loose in my mind  
I can't occupy the space I'm given  
Turn around in the light  
It don't matter the reason  
You turn around on me  
Turn around all of my life  
And I've got to find a reason  
To get on, alone in my life

You're behind me (I got all this time)  
Turn my lovin' away (I got all this time)  
Your lovin' behind me (I got all this time)  
Turn my lovin' away (I got all this time)  
With your lovin' behind me (I got all this time)  
Turn my lovin' away (I got all this time)  
With your lovin' behind me (I got all this time)  
Turn my lovin' away (I got all this time)

No matter what  
The doubt's been sailing loose in my mind  
I can't occupy this space I'm given  
Turn around in the light  
It don't matter the reason  
You turn around on me  
Turn around all of my life  
And I've got to find a reason  
To get on

You're behind me  
Turn my lovin' away  
Your lovin' behind me  
Turn my lovin' away  
With your lovin' behind me  
Turn my lovin' away  
With your lovin' behind me  
Turn my lovin' away  
You're behind me (I got all this time)  
Turn my lovin' away (I got all this time)  
Your lovin' behind me (I got all this time)  
Turn my lovin' away (I got all this time)
