

Void

Algiers

Thousand one, forty-four
Cryptontology
Buy and sell your future self
Far as the eye can see
Silver screen, sing a song
Buying out your hell
This and more can all be yours
Just for the price of-

Got to find a way
Got to find a way
Got to find a way
To get out of it, out of it
Got to find a way
Got to find a way
Got to find a way
To get out of it now!

Empty walls, silver tiles
Luxury for miles
See my skin so nice and white
It glows just like a smile
Any time, any place
It can all fall down
Watch me through the looking glass
You'll see it coming

And it's coming around (it's opportunity)
And it's coming around (it's opportunity)
And it's coming around (it's opportunity)
And it's coming around (it's opportunity)

Got to find a way
Got to find a way
Got to find a way
To get out of it, out of it
Got to find a way
Got to find a way
Got to find a way
To get out of it now!

All the smoke, triggered out
Gone without a sound
Hit me when you disconnect it
I will be around
Any place and any time
It can all fall down
You watch it through the looking glass
You'll see it coming
Get out!

(Yeah, yeah, yeah, yeah, yeah)

And it's coming around (it's opportunity)
And it's coming around (it's opportunity)
And it's coming around (it's opportunity)
And it's coming around (it's opportunity)

And it's coming around (it's opportunity)
And it's coming around (it's opportunity)
And it's coming around (it's opportunity)
And it's coming around (it's opportunity)

And it's coming around (it's opportunity)
And it's coming around (it's opportunity)
And it's coming around (it's opportunity)
And it's coming around (it's opportunity)
