

# Does He Know

Ali Gatie

Does he make you laugh like that, smile like that?  
Does he know your past like I know your past?  
Does he know you still in love, you still in love with me?  
Does he know if I call, you run right back?  
Does he know that you still send me Snapchats?  
Does he know you still in love, you still in love with me?

Yeah  
Started fightin' back and forth, that's when things got difficult  
Actin' like we hatin' each other, had us fallin' out of love  
Look you in the eye and I can't recognize you anymore  
Could you even tell me what the fuck we're even fightin' for?  
All of this just because we were desperate for love  
Find ourselves in each other, we was toxic and young  
I can't believe we'd go out like this

I know you tryna make me jealous, tryna make me angry  
I know that you ain't feelin' special, why else would you text me? (Ayy)  
See, I can meet you in the middle, if you'd let me  
I know you tryna make me jealous, only 'cause you wanna hurt me

Does he make you laugh like that, smile like that?  
Does he know your past like I know your past?  
Does he know you still in love, you still in love with me? (With me, with me  
, with me)  
Does he know if I call, you run right back?  
Does he know that you still send me Snapchats?  
Does he know you still in love, you still in love with me? (With me, with me  
, with me)

Yeah  
I know there's things that I could do better and I will  
No matter what I promise you, I'ma keep it real  
I made mistakes and I know it makes you overthink  
Over and over and over and over again  
No matter what the price is, I'm here to pay  
'Cause sometimes it's just worth it to just take the L  
See, I don't wanna lose you, yeah, I rather fail  
Over and over and over and over

I know you tryna make me jealous, tryna make me angry  
I know that you ain't feelin' special, why else would you text me? (Ayy)  
See, I can meet you in the middle, if you'd let me  
I know you tryna make me jealous, only 'cause you wanna hurt me

Does he make you laugh like that, smile like that?  
Does he know your past like I know your past?  
Does he know you still in love, you still in love with me? (Yeah, me, yeah)  
Does he know if I call, you run right back?  
Does he know that you still send me Snapchats?  
Does he know you still in love, you still in love with me?

Does he know you callin' me every night when you're alone?  
Does he know you need me there when he's not home, when he's not home  
Does he know that when you're lonely, I'm the one that you call?  
Tell me, does he know?  
'Cause I would wanna know

Does he make you laugh like that, smile like that?  
Does he know your past like I know your past?  
Does he know you still in love, you still in love with me? (Yeah)  
Does he know if I call, you run right back?  
Does he know that you still send me Snapchats?  
Does he know you still in love, you still in love with me? (With me)
