

# I Can't Lie

Ali Gatie

I can't lie I miss you  
I forgot the issues  
How could you forget me?  
When I couldn't forget you?

These bitches steady wylin  
You know that Ima pick you  
You always causing problems  
Girl I knew how to solve em  
You know that we official  
(Number 1)

But I'm just being honest  
Been thinking bout it constant  
My heart you broke so easy  
My heart you stole you robbed it

I started never stopping  
You tell me that you want it  
These tracks I'm steady dropping  
Your friends they think I'm popping  
You crying call me sobbing

Used to be my my accomplice  
What I want I accomplished  
To me now you be nothing  
You was just always fronting  
Now see me I been stunning  
Can't lie yeah you a dime  
But I be counting hunnids  
(But I be counting hunnids)

You walking I be running  
You left when I was coming  
You left me like it's nothing  
Now I'm just up to something

You thought I'm tryna holla  
I gave you every dolla  
You ain't give me a penny  
But I gave you my wallet

I can't lie I miss you  
I forgot the issues  
How could you forget me?  
When I couldn't forget you?

I can't lie I miss you  
I forgot the issues  
How could you forget me?  
When I couldn't forget you?

How could you forget me?  
You said that we was gon be  
(Forever)  
You always talking so cheap  
You don't trust me

Well  
Where was the trust?  
Let me just ask you girl  
Where was the love?  
I put u first  
You put me last  
Can't say you played me  
But girl lemme ask  
Why would you lie?  
Nights you would cry  
Say I'm your man  
I'd be your guy  
Love in the air  
We would just fly  
I didn't care  
Till I hit the ground

I can't lie I miss you  
I forgot the issues  
How could you forget me?  
When I couldn't forget you?
