

Nobody Like You

Ali Gatie

I need someone like you
But ain't nobody like you
Baby yeah you lied but
It's okay I lied to
I think you should slide through
Cause I'm just tryna wife you
Now you got me tripping sitting thinking what should I do

Thought you'd be the one but I was wrong
What hurts the most is knowing that your gone
It's hurts to think that you don't even think about me
Baby do you listen to my songs
Got me thinking tripping baby but just tell me honestly
We used to be friends and now you don't follow me
Tried to make it till the end but you keep on blocking me
I was tryna Make amends but you keep on stopping me
Loving you took me to hell and back
And sometime fuck I feel like going back
But you got me fucked up I'm just thinking fuck that
Cause when I see you smile I go right back

And I'll go right back
I'll go right back
You put me through hell
So I'll be right back
I'll go right back
I'll go right back
I kno the feeling well
So I'll be right back
Cause you kno

I need someone like you
But ain't nobody like you
Baby yeah you lied but
It's okay I lied to
I think you should slide through
Cause I'm just tryna wife you
Now you got me tripping sitting thinking what should I do

It's been a while since the last time that we spoke
And Is it wrong that I'm still out here keeping hope
Baby help me just fix what we broke
Cause I can't beilvie that this as far as we'd go baby

Something bout you feel different
Lately I'm feeling the distance
I really thought we could fix it
But lately you don't wanna listen
Gave you my attention
U kno my intentions
You broke our connection
But I just really wanna mention

I need someone like you
But ain't nobody like you
Baby yeah you lied but
It's okay I lied to

But I think you should slide thro
Cause I'm just tryna wife you
Now you got me tripping sitting thinking what should I do

I need someone like you
But ain't nobody like you
Baby yeah you lied but
It's okay I lied to
But I think you should slide thro
Cause I'm just tryna wife you
Now you got me tripping sitting thinking what should I do
