

## Leave my business

Alians

wake up one morning  
and you got no tea  
little one, litte one  
you're so sorry to me but  
that's nobody's business but my own  
the other day comes and it happens again  
don't think that I am gonna feel ashamed  
that's nobody's business but my own

so you better  
leave my business  
you better  
leave my business  
you better  
leave my business but you mind your own

if I get high and fly like bird  
you should never say a word  
that's nobody's business but my own  
if you drink rum and tumble down  
you're gonna always get your fun  
that's nobody's business but your own

so you better  
leave my business  
you better  
leave my business  
you better  
leave my business but you mind your own

if I get high and fly like bird  
you should never say a word  
that's nobody's business but my own  
if you drink rum and tumble down  
you're gonna always get your fun  
that's nobody's business but your own

so you better  
leave my business  
you better  
leave my business  
you better  
leave my business but you mind your own
