

Aries

Alice Chater

Try my best to figure it out
My whole world is falling
Can't let go
There is no way back now
Used to see you crystal clear
Your body's close, but you're not here
I feel a little insecure, mmm
There is no way back now, oh yeah

It's time now to face my greatest enemy all by myself
I'm struggling to stand on my own, I try, I try

Stand on your own and just breathe
Fight it alone and just breathe
Do it alone and just breathe
Stand on your own and just breathe

Take my time, slow it down
Look, now you're calling
You want me back
When I am standing strong
Oh yeah, oh

It's time now to face my greatest enemy all by myself
I'm struggling to stand on my own, I try, I try

Stand on your own and just breathe
Fight it alone and just breathe
Do it alone, just breathe
Stand on your own and just breathe

Just breathe
Oh no, just breathe
Just breathe

I used to feel invisible
Now I see them look at me
Love yourself and you'll be free, oh
Just breathe, just breathe, just breathe
Just breathe, just breathe, just breathe

Stand on your own and just breathe (Oh)
Fight it alone and just breathe (Oh)
Do it alone and just breathe (Oh no)
Stand on your own and just breathe
Stand on your own and just breathe
Fight it alone and just breathe (Oh no, hey)
Do it alone, just breathe
Stand on your own and just breathe
