

Crash

Alice Chater

Hang my legs from the fire escape
Tell me my future's at stake
That heaven is to blame
Just save me now

I broke too many hearts
Tired of loving in the dark
Wanna go away
Do it my way

Cause it's over
I can look over my shoulder
Settle my sorrys

It's over
Maybe I'm reaching too high
But I'd rather crash than not try

Drop the shakles to the ground
And rejoice at the sound
Of freedom waking up the pavement

Love is creepin' out
It drags me undertow
Wanna go away
Do it my way

Cause it's over
I can look over my shoulder
Settle my sorrys

It's over
Maybe I'm reaching too high
But I'd rather crash than not try

You take 'em the best of me
Bruises fadin' and the memory
Put myself first for the first time
The first time

Tryin' a leave and not cave in
And until the ties clear off my skin
Put myself last for the last time

Cause it's over
I can look over my shoulder
Settle my sorrys

It's over
Maybe I'm reaching too high
But I'd rather crash than not try

It's over
I can look over my shoulder
Settle my sorrys

It's over

Maybe I'm reaching too high
But I'd rather crash than not try

I'd rather crash
But I'd rather crash than not try
I'd rather crash than not try
