Don't want your love (Don't want your love)
Don't want your heart (Don't want your heart)
Don't want the wake up calls
To only talk, simulate missed messages

Don't want your mind (Don't want your mind)
Don't want your thoughts (Don't want your thoughts)
Don't want the ups and downs, the back and forth
The senseless arguments (senseless arguments)

All I ever wanted was to kiss your lips
All I ever wanted was to feel your body next to mine (mine)
I think that would've been just fine (just fine, baby)

All I ever wanted was to explore
Have a little sex
Baby nothing less, nothing more
But now you're trying to handcuff a girl
To a long term love

Why you wanna lock me down?
Why you wanna tie me down?
Messing with you was so much fun (was so much fun)
When we had no title

Now I'm about to drown
I just wanna get out
Cause messing with you was so much fun
When we had no title

Keeping it simple would've been real cool
I didn't need you on my every move
As soon as I let you ride
You got all up tight tryin' a pin me down

With your rules
You switched up and it turned me off
Now the vibe is just gone
It started to fade
When you let me be the only one

All I ever wanted was to kiss your lips
All I ever wanted was to feel your body next to mine
(I think that would've been just fine)

All I ever wanted was to explore
Have a little sex
Baby nothing less, nothing more
But now you're trying to handcuff a girl
To a long term love

Why you wanna lock me down?
Why you wanna tie me down?
Messing with you was so much fun
When we had no title

Now I'm about to drown

I just wanna get out
Cause messing with you was so much fun
When we had no title

Why you wanna lock me down?
Why you wanna tie me down?
Messing with you was so much fun
When we had no title

Now I'm about to drown
I just wanna get out (uh)
Cause messing with you was so much fun (uh, uh, uh)
When we had no title (uh, uh)

Some say that x make the sex spectacular
She like that D better from a bachelor
That go longer than a I would
I put it down like the dog from your childhood
You need dat, every time I'm in it, it's positive feedback
So comfortable, no rubber between that
She kiss a fat Joe, she telling me lean back, so, I lean back
She catchin' feelings
That ain't my business
Cause I do it, just do say I did it
Get with my -, we whipping past
They ask me if I hit it
I tell them "hulk smash"

Why you wanna lock me down? (why you wanna lock me down)
Why you wanna tie me down? (why you wanna tie me down)
Messing with you was so much fun (was so much fun)
When we had no title

Now I'm about to drown
I just wanna get out
Cause messing with you was so much fun
When we had no title

Why you wanna lock me down? (why you wanna lock me down)
Why you wanna tie me down? (why you wanna tie me down)
Messing with you was so much fun (was so much fun)
When we had no title

Now I'm about to drown
I just wanna get out
Cause messing with you was so much fun
When we had no title (Yeah!)

Messing with you was so much fun
When we had no title (Hooh, ooh)

Cause messing with you was so much fun
When we had no title
