

Thief

Alice Chater

Mmm, eh

Right from the second you met me, you were coming to get me
Like a dream but I wasn't asleep
When I'm not with you, I notice that beneath all my clothing
There's a world that you've broken in me

All I need is your hands on my body
Say goodbye to the party
Going out without stopping
Bringing it out of me
Now I can't breathe
You've taken possession
Like a burning obsession
Answering all my questions
Take what you want from me

You stole my heart just like a thief
I guess you'll always have a part of me
I said give it back
It's not yours to keep
Can't help myself
I'm falling for a thief
Can't help myself
I'm falling for a thief

I left emotions wide open and he captured them slowly
Now I want you and I, can't explain, yeah
Just promise me you'll protect it
Never go, never let it
Feel the cold when your touch goes away

All I need is your hands on my body
Say goodbye to the party
Going out without stopping
Bringing it out of me
Now I can't breathe
You've taken possession
Like a burning obsession
Answering all my questions
Take what you want from me

You stole my heart just like a thief
I guess you'll always have a part of me
I said give it back
It's not yours to keep
Can't help myself
I'm falling for a thief

(Hands on my body)
Your hands on my body, yeah
(You've taken possession)
You got me so bad, oh so bad
Yeah
When I'm not with you, I notice that beneath all my clothing
There's a world that you've broken in me

You stole my heart just like a thief
I guess you'll always have a part of me
I said give it back
It's not yours to keep
Can't help myself
I'm falling for a thief
You stole my heart just like a thief
I guess you'll always have a part of me
I said give it back
It's not yours to keep
Can't help myself
I'm falling for a thief
Can't help myself
I'm falling for a thief
