

Wonderland (My Name Is Alice)

Alice Chater

Hi, my name is Alice
Step into my palace
If you're ready, you'll come find me
Sipping on my chalice
Wanna see your talents
Make you lose your balance
Say you're scared, well I'm prepared
You know I like a challenge

If you want to
I can show you colours that you've never seen before
If you want to
I can take you places that you've never been before

Welcome to my wonderland
If you wanna play, you should understand
I'ma do things that no one can (ahh)
Need you to be bigger than the highest highs and the tallest man
So take a big sip like I know you can (ahh)

Hi, I might be greedy
If you learn to please me
I can grant your wishes, but you know I ain't a genie
Let's you and I be easy
Trip until you see me
Ride through this dimension in my neon Lamborghini

If you want to
I can show you colours that you've never seen before
If you want to
I can take you places that you've never been before

Welcome to my wonderland
If you wanna play, you should understand
I'ma do things that no one can (ahh)
Need you to be bigger than the highest highs and the tallest man
So take a big sip like I know you can (ahh)
