Go Away

Alice Cooper

She's like a burn in the 3rd degree
Like a constant itch, driving me crazy
Oh yeah
She's like a fly buzzin' 'round my head
That makes me cry, wishin' I was dead
Oh, no

She spams me every night
She calls, she texts, she writes

No matter what I do, no matter what I say
That girl just won't go away

Why won't she understand
I'll never be her man?
That girl just won't go away!
Why won't she just go away?

She's a thorn stickin' in my shoe
Like a kidney stone that just won't pass through
Torture
I met her once back in '92
At a Detroit show, now she sticks like glue
That's her

She spams me every night
She calls, she texts, she writes

No matter what I do, no matter what I say
That girl just won't go away

Why won't she understand
I'll never be her man?
That girl just won't go away!
Why won't she just go away?

I could cut my hair, I could hide my face
I could shoot myself into outer space
Bye-bye
I could change my number, I could change my name
But she would hunt me, find me just the same
No lie

I tried to be polite
Don't call, don't text, don't write!

No matter what I do, no matter what I say
That girl just won't go away

Why won't she understand
I'll never be her man?
That girl just won't go away!
That girl just won't go away!
Just go away!
