

# Under the Bed

Alice Cooper

I know they're under the bed, That's where they hide  
I know they need to be fed every night  
They live deep under the bed, way down below  
I found the skin that they shed coz they' eat there, and  
they bred there  
And they grow..

Save me, I can't take any more  
Coz it's happening again  
I've had this nightmare before  
And I know how it ends  
How it ends

My cat went under the bed, and dissapeared  
All we found was a tail and a paw and an ear  
I know they're talkin' 'bout me when it's dark not light  
They don't like to be seen coz they growl there and they  
laugh there and they bite

Save me, I can't take any more  
Coz it's happening again  
I've had this nightmare before  
And I know how it ends  
How it ends

Save me, I can't take any more  
Coz it's happening again  
I've had this nightmare before  
And I know how it ends  
How it ends
